Studying Osteopathy at VU

Osteopaths diagnose, treat and provide preventative advice about disorders that affect the body's musculoskeletal system, using manual techniques to alleviate stresses and dysfunction to improve the body's function ([Good Universities Guide - Osteopathy](#))

VU offers one of only three of these accredited double degree programs in Australia. Core studies include anatomy, osteopathic science, physiology and biochemistry. Students undertake fieldwork and clinical practice to prepare them for their osteopathy career.

Students considering a career in osteopathy need to complete the **Bachelor of Science (Osteopathy)** first; this is a 3-year course and provides an entry into an osteopathy career. Completion of the Bachelor of Science (Osteopathy) course alone does not make graduates eligible for registration as Osteopaths. Students must also complete the Masters of Health Science (Osteopathy) in order to be eligible to register as an Osteopath. So, the double degree program is:

- ❖ [Bachelor of Science \(Osteopathy\)](#) - 3 years
- ❖ [Masters of Health Science \(Osteopathy\)](#) – 1,5 years

On completion of both programs, students will be eligible for:

- registration with the **Osteopaths Registration Board of Victoria**
- registration as an Osteopath in all other Australian states
- membership with the **Australian Osteopathic Association**

For further information about registration requirements, visit the [Australian Health Practitioner Regulation Agency](#) website.

VU has a an [Osteopathy Teaching Clinic](#) which operates 47 weeks per year, and students are required to attend clinical sessions on a rotation basis including outside of semester hours to maintain a public service and provide continuity of patient care. Clinical training, including fieldwork, is crucial in the preparation to becoming an Osteopath.

Students considering studying to become an Osteopath, might like to consider attending the upcoming ***Osteopathy Course Information Evening*** hosted by Victoria University. Attendees will have the opportunity to learn about how osteopathy is taught at VU, and participate in a tour of the facilities at the City Campus used by osteopathy students. There will also be an opportunity to ask questions and discuss the course with Osteopathy staff and students.

Time: 7.00pm – 8.30pm

Students considering studying *art, design, or architecture*, but are not quite sure, are encouraged to attend the upcoming ***Monash Art, Design and Architecture (MADA) Careers and Creativity Day*** as an opportunity to find out more about the courses available, and the varied careers to which they can lead.

The day will begin with a panel discussion between a variety of MADA's lecturers and alumni – all practicing artists, designers, and architects – about where their own career paths have taken them and the job prospects they have encountered along the way.

In the afternoon, students will have the opportunity to take part in one of six hands-on workshops, focusing on their particular area of interest. For students interested in fine art, this workshop will include an insider's guide to the application process
